Short Description of the Organisation and the Faculty/Dept./School/Centre	<i>Carr Communications is one of Ireland's leading communications companies, and provider of PR, dissemination, training, careers, and dissemination and exploitation. Our clients include government agencies, private sector companies and corporations in Ireland and across Europe. We are dissemination and exploitation partner in a number of EU funded research and innovation projects and provide communications and exploitation services to project consortia of academia, research institutions and private sector companies.</i>	

Short Description of the Research Project/Topic	<p><i>We are looking for a researcher to join us to work on Innovative Impact for EU Funded Research Projects. The research will entail best practices in science communications exploration and development of innovative dissemination and exploitation concepts. This also will involve researching methods and practices to maximise impact of EU funded research, and identifying commercialisation and spin-off opportunities for the results of EU funded research. Possible research themes will include: influencing (regional, national, European) policy with EU funded research results, demonstrating the impact of collaborative innovation, managing innovation knowledge, demonstrating the added value of EU funded research to EU citizen's lives by improving society and the environment and contributing to job growth and European competitiveness.</i></p>
Expertise required by the applicant	<p><i>Essential: PhD or 3-4 years post BA qualification research experience Candidate must not have spent more than 3 out of the last 5 years in Ireland Excellent written and verbal skills in English Desirable Experience of current communications, dissemination and exploitation practices Experience with science communications/education Experience with EU funded research projects Commercial / Commercialisation experience Digital media skills and experience</i></p>
Career development support offered to fellows	<p><i>Carr Communications is one of Ireland's foremost providers of training and career development services. We can provide a researcher with career development planning, CV preparation, Interview preparation, Presentation skills, Media skills, among others.</i></p> <p>http://www.carrcommunications.ie/our-services/training-programmes</p> <p>http://www.carrcommunications.ie/our-services/training-programmes</p>

Application procedure	<i>CV, Letter of Motivation, Writing Sample (5 pages max), Interview (online is possible)</i>
