EURAXESS IRELAND
SOLUTIONS FOR RESEARCHERS

EURAXESS IRELAND

EURAXESS Ireland provides free advice and guidance to researchers moving to or from Ireland to develop their research career.

EURAXESS.ie provides information on a range of issues and areas affecting researchers, including immigration and visas, employment law, healthcare, childcare, social services, and life in Ireland.

Additionally the portal provides a definitive list of research funding opportunities and positions in Ireland.

Complementing the portal, the EURAXESS Ireland Office provides free advice to mobile researchers and their families on administrative, working and cultural matters including immigration, residency and work permits, schooling, language courses and other practical information to guide them before and upon their arrival in Ireland.

EURAXESS Ireland's services and support are available to higher education institutions, companies and research organisations.

THE HOSTING AGREEMENT

EURAXESS Ireland, on behalf of the Department of Enterprise, Jobs and Innovation, processes 'Hosting Agreements'.

Under certain conditions a non-EEA (European Economic Area) researcher and their employer can avail of a hosting agreement, which allows a researcher to work in Ireland without recourse to the usual work permit or Green Card.

The Hosting Agreement also allows the researcher's immediate family to live in Ireland for the duration of the agreement and entitles their spouse and dependents to apply for a work permit allowing greater ease of access to employment in Ireland.

More information on the Hosting Agreement, including application details is available from

www.euraxess.ie

EURAXESS JOBS PORTAL

EURAXESS Ireland hosts a job portal, which advertises research positions and funding opportunities available in Ireland.

THE PORTAL FOR RESEARCHERS

- A free service allowing registered researchers to conduct a tailored search for available research positions in accordance with their disciplinary and professional experience.
- The ability to create a personal researcher profile that is available to registered employers searching for research talent.
- Email alerts on positions of relevance to your individual profile.
- The ability to upload a profile and curriculum vitae that employers can view.

CV DATABASE

THE PORTAL FOR EMPLOYERS

- A free search facility that allows employers to identify potential research vacancy candidates.
- A free advertising service to a targeted audience of website/portal users who are seeking research vacancies.
- Free European advertising through the European Commission's EURAXESS site which advertises all research vacancies on all thirty-seven national portals. This European site is populated from the individual national portals every Thursday.
- Free advertising with NatureJobs.com. Any job advertised on EURAXESS is ultimately advertised on **NatureJobs.com**
